Song Lyrics

No cash for you today
The banks are empty
So much for payday
Thieving and decay
No one to care
A highway robbery
You've bills to pay
But no one takes
Monopoly money

Clock ticking
Days passing
A life on borrowed time
No way out
No way back
Back to when you had plenty

No pills for you today
Cancer ignored
And spread through your airway
They say they'll find a way
Seductive lies
You knows how this goes
Go home and pray
Or maybe Valium
For your troubles

Clock ticking
Days passing
A life on borrowed time
No way out
No way back
Back to when you breathed freely

No school for him today
The car needs fuel
Sits blocking the driveway
School is miles away
Sold all you can
The fees ballooning
Your only way
Is ship him off
To live with Aunty

Clock ticking
Days passing
A life on borrowed time
No way out
No way back
Back to when he was carefree

Song Lyrics

No reason to stay
There's nothing here
But a blackened ashtray
Keep your tears at bay
Put on a smile
And wave him goodbye
Then turn away
Sit in this hole
And count the hours

Back to when you were happy
